Accordingly, the purpose of the personal data processing is to provide such Services to Controller and the processing is by nature an inseparable part of such Services. The subject matter of the processing comprises activities where Framery processes personal data solely for and on behalf of Controller (the “Processing Services”). Controller considers the Processing Services to implement appropriate technical and organizational measures to meet the requirements of the Data Protection Law and ensure the protection of the rights of the data subjects.
 - 2.1.2. The Processing Services are separate from the processing of personal data that Framery carries out for its own purposes while providing the Services or products under the Agreement.

- 2.1.3. For the purposes of the Processing Services, Controller shall be the controller and Framery shall be the processor for the personal data concerned.
- 2.1.4. For the sake of clarity, notwithstanding anything contrary to this DPA, Framery shall have a right to process the same or similar personal data as processed as part of the Processing Services also for its own separate purposes and may without any encumbrances continue such processing also after the termination of the Agreement.

Controller acknowledges that the Services, to which the processing relates, are provided in a similar manner to all customers of Framery and for that reason, Framery has very limited possibility to take customer-specific instructions for the processing;
- 3.1.2. immediately inform Controller if, in its opinion, any instruction given by Controller infringes the Data Protection Laws or other applicable legislation;

Such objections shall be provided to Framery in writing within seven (7) calendar days after the notification by Framery. However, Controller shall not object to any changes in the engaged Sub-processors,

if such objection (i) prevents Framery from using Framery Affiliates as Sub-processors, (ii) prevents Framery from complying with its obligations under the Agreement, or (iii) is made on unreasonable grounds. The Controller acknowledges and agrees that in case it objects to the use of or change concerning any Sub-processor, Framery may no longer be able to provide the Services to the Controller.

- 4.2. Framery shall impose on the Sub-processor the same obligations related to the processing of personal data as set out in this DPA by a separate agreement. - 6.2. Controller shall be entitled to once per calendar year perform an audit by a third-party independent auditor to ascertain that Framery complies with this DPA. Controller shall notify Framery within sixty (60) working days before such audits. The third-party independent auditor may not be a direct or potential competitor of any kind to Framery. The audits shall be performed during normal working hours and shall not unreasonably disturb the operations of Framery.
- 6.3. Controller shall reimburse Framery for any costs and expenses accrued in connection with audits set out in this Section 6.

7. Duration and termination of the processing

- 7.1. The duration of the processing of personal data is conditional to the provision of the Processing Services and shall endure until the data has been deleted or returned under Section 7.2.
